

## HENDRY COUNTY COMPREHENSIVE PATHWAYS PLAN

**Client:** Hendry County, Florida

**Site Area:** 1,190 sq miles

**Location:** Hendry County, Florida

**Project Objective:** Creation of a Comprehensive Pathways Plan for Hendry County.

**Project Summary:** Land Planning Solutions has partnered with Kimley-Horn and Associates/Urban Resource Group (KHA/URG) to assist in the creation of the Hendry County Comprehensive Pathways Plan. Specifically, Land Planning Solutions is heading up the public involvement component to the project. Our main tasks are to develop a Public Involvement Plan (PIP), to organize and facilitate stakeholder meetings at various locations throughout Hendry County to gain community insight, solicit information from the School District to better provide recommendations for Safe Routes to School and to provide analysis of the information received. Additionally, our input into the final Comprehensive Pathways Plan will be provided to our KHA/URG teammates to meet the project deadline of August 2009.

### COMPREHENSIVE PATHWAYS PLAN MAJOR ISSUES TO ADDRESS:

- ◆ Identify existing legislation, policies & programs affecting bicycles and pedestrians
- ◆ Formulate a Public Involvement Plan and strategy to be used throughout plan development
- ◆ Identify & inventory existing bicycle & pedestrian facilities, including opportunities and constraints in the network
- ◆ Develop a methodology for the analysis of bicycle & pedestrian data
- ◆ Identify, evaluate and prioritize a ranking of bicycle & pedestrian travel & transportation improvements
- ◆ Develop pathway standards for public and private development
- ◆ Develop an implementation process for obtaining the identified goals and objectives
